SENATOR HEYBURN AND REPRESENTATIVE MANN, LEADERS IN THE FIGHT FOR THE PURE FOOD BILL.

SWEARING MAD.

Clara—My husband gives me five cents every time he swears.
Jennie—I suppose you keep him mad all the time.

TAKING CHANCES.

There were two politicians occupying the same seat in the smoking car and talking together, and in the seat ahead was a farmer. Presently one of the men said:

"Don't you think that China is the slow and old-fashioned country the newspapers speak of. She is having her armies of 200,000 men, and she is armed with the latest muskets and artillery. I tell you, she will be heard from within another decade."

"Do you think she will bring on another war?" was asked.

"I have no doubt of it. Yes, sir, I expect to see a war between China and Russia within another decade."

"So you think another war is bound to come, do you?" asked the farmer, as he turned around.

"I haven't the slightest doubt of it, my man."

"And will it affect us?"

"It is certain to, more or less."

The man of toll turned back and thought things over for a few minutes and then wheeled to say:

"Well, I think I'll take my chances. I am in the pickle business. Pickles ought to be worth \$3 a barrel, but they are selling for 25 cents less. I guess I'll hang on, war or no war. 'Till they come up to my gager. Durn a man who hasn't got some sporting blood in his veins."

PUBLIC DEBT GROWS.

Monthly Statement Shows 9 1/2 Millions Increase in July.

Washington, Aug. 2.—The public debt at the close of business July 31, 1906, less cash in the treasury, amounted to \$973,886,801, which is an increase for the month of \$3,421,114. This increase is largely accounted for by the decrease in the amount of cash on hand. The recent issue of Panama bonds does not appear in the July statement. The debt is recapitulated as follows: Interest bearing debt, \$985,150,000; debt on which interest has ceased since maturity, \$1,126,685; debt bearing no interest, \$397,535,067; total, \$1,283,829,752. This amount does not include \$1,048,852,306 in certificates and treasury notes outstanding which are offset by an equal amount of cash on hand, which is held for their redemption.

The cash in the treasury is classified as follows: Gold reserve, 150 million dollars; trust funds, \$1,948,852,306; general fund, \$185,251,754; in national bank deposits, \$34,480,065; in Philippine treasury, \$1,177,652; total, \$1,472,703,821. Against this there are demands for liabilities outstanding amounting to \$1,153,729,289, which leaves a cash balance on hand of \$319,964,541.

Government Revenues Fell Short.

The government receipts last month were \$52,298,852 and the expenditures \$55,913,721, leaving a deficit for the month of \$3,614,869, an amount in excess of the deficit for the month of July, 1905, of \$13,855,563. One year ago, however, the semiannual settlement note of the Central Pacific Railroad company, amounting to \$2,752,000, was paid on the last day of July, so that it was taken into the July account. The note of the company, amounting to \$2,752,000, due August 1, 1906, was not paid until the August account. The actual deficit for the month, therefore, is \$3,101,424 less than for July, 1905.

The receipts from the several sources of revenue are given as follows:

Customs, \$26,176,744; increase, \$4,500,000.

Internal revenue, \$22,102,238; increase, \$1,014,000.

Miscellaneous, \$4,019,869; decrease, \$2,578,000.

The expenditures for the month were \$55,913,721 in excess of those for July, 1905, largely due to work on the Panama canal.

Coinage in July.

The coinage executed at the mints of the United States last week amounted to \$6,176,000 in gold and \$128,164 in silver. These amounts, however, do not include \$50,000 pieces minted for the Philippine government.

The amount of national bank notes in circulation is \$661,481,045, an increase for the past year of \$17,500,650 and an increase in July of \$368,485.

ON THE OTHER SIDE.

Mr. Hendry, of Nickerson, Discusses Primary Law and Pass Question.

To the Editor of the State Journal:

There is a great deal being said about a primary election law. Everybody, almost, favors such a law, but no one seems to know just how it should be framed so as to be an improvement over the delegate and convention system. I don't, I am free to admit. But there must be a provision requiring a certain per cent of all of the votes cast to nominate a candidate. To illustrate: Reno county has 8,000 voters. Suppose there are five candidates for sheriff, as we have in the Reno county convention. Under a primary law as most people advocate, one candidate could get 1,601 votes, one 1,599, and the other three 1,500 apiece. The candidate with a majority of one vote would be nominated. Would such a nomination be fair? Would it represent the majority? How long would the people stand for such a law?

The I. O. O. F. elect their grand officers by the past grand casting their votes at home in the subordinate lodges. But the officer elected must have at least 40 per cent of all of the votes cast. Sometimes there are ten or a dozen candidates and no one receiving 40 per cent. of all votes cast there is no election until the grand lodge meets. When they proceed to elect in the usual manner the candidate must receive a majority of all votes cast. The primary law ought to require that not less than 40 per cent. of the votes cast to make a nomination.

A word on the pass business. There is no law to prevent passes being given by the railroads, and no law to prevent people from accepting them. The man who receives a pass from a railroad and does not use it is a fool, and the man who uses a pass and allows it to control his vote or his position is a knave. I do not believe that the vote of one man in ten is controlled by a railroad pass. How many officers, county, state or national, are controlled by a pass? It is a fact that nearly all laws passed to prevent discriminations by common carriers have been advocated and passed by men who have been benefited by the very discriminations that they oppose. They saw the injustice to the public and opposed the wrong. The system of free passes is wrong, just as the system of half rates to

BOY STOLE BABY LIONS.

Tucked Two Under His House at Boston Animal Kindergarten.

Boston, Aug. 2.—The mystery surrounding the theft of two baby lions from the kindergarten at Paragon park was cleared away when a member of the summer colony at Point Allerton called at Paragon park and confessed that his 12-year-old son, who had become imbued with the idea that he must become a lion tamer, had stolen the animals and kept them unknown to his parents in a shed. When one of the lions died, as a result of being overfed, he confessed his theft to his mother.

The father offered to reimburse the kindergarten for any reasonable amount on condition that his son should not be prosecuted. He paid \$175.

At the kindergarten a baby leopard, two baby lions, two dachshunds, two rabbits, a baby bear, and a monkey were placed on a low table and the children are allowed to play with them. Two weeks ago the lad from Point Allerton paid a visit to the park. He played with the pets for hours, and when the attendant was out or asleep slipped the two baby lions under his house and started for home.
